

Set of 4 filters Freewell Bright Day for DJI Mavic 3 Pro/Cin

Ref: 6972971862007

Set of 4 filters Freewell Bright Day for DJI Mavic 3 Pro/Cine

Freewell Bright Day filter set of 4 for DJI Mavic 3 Pro/Cine

The Freewell Bright Day Set of 4 filters are the key to getting great results on bright, sunny days. They are a perfect fit for the DJI Mavic 3 Pro and DJI Mavic 3 Pro Cine drone and are extremely easy to install. They also do not negatively affect the stability of the gimbal. All filters are housed in a practical case that not only protects, but also makes it easy for you to carry and store.

Professional shots in all conditions

In the kit you will find 4 different ND/PL filters - ND8/PL, ND16/PL, ND32/PL and ND64/PL. Each is a combination ND (light reducing) and PL (polarising) filter, giving you precise control over exposure and reducing unwanted reflections on water and glass surfaces. They will give you fantastic results whether you are on the beach in the sunshine or in the mountains in the glare of snow.

Top quality workmanship

High-quality German optical glass has been used to make the filters. These are characterised by colour neutrality and exceptional scratch resistance. The filters have also been treated with a special coating that provides effective protection against water, dust and oil. So you can be sure that the filters will remain intact, no matter what conditions you are working in.
