Computer case Darkflash DLM200 (black)

Darkflash DLM200 computer case

Are you looking for a computer case that will allow you to assemble the computer of your dreams? The Darkflash DLM200 model will be an excellent choice! It allows you to mount HDD and SSD drives, and allows you to use useful ports, for example, USB 3.0 and USB 2.0. At the same time, it is compatible with a wide variety of components and features a modern, original design that catches the eye and gives it a unique character.

The computer you dream of

Assemble yourself a computer that you will enjoy working or even playing at. The DLM200 case is compatible with motherboard standards such as M-ATX and ITX, and it also allows you to install a 160mm high CPU cooler and a graphics card up to 300mm long. There are also 4 slots for expansion cards, as well as space for HDD or SSD drives. The possibilities are almost endless!

Efficient cooling system

With the DLM200 case you can easily assemble a computer that can handle even extremely demanding games and will not overheat. You can install up to 6 120mm fans or 4 140mm fans in it. There is also space for 240mm or 360mm water cooling. All this will allow you to take care of keeping the temperature of your equipment at an optimal level.

Tailored to your needs

Enjoy comfortable work at your computer. The Darkflash DLM200 chassis is equipped with a number of ports and buttons that you are sure to find useful. Among other things, it offers a USB 2.0 interface, a headphone/speaker output and a USB 3.0 interface for high-speed data transfer. If you frequently transfer files between devices, this will be the perfect option for you - it will save you time!

Original design

Do you care about the perfect appearance of your computer? The Darkflash DLM200 case will certainly meet your expectations! The transparent side panel made of tempered glass and the front panel with an interesting mesh structure will allow you to achieve interesting visual effects, for example, in combination with RGB fans. What's more, both panels can be easily disassembled to replace parts or clean the hardware.
