

Backpack 20L K&F Concept Beta V6

Backpack 20L K&F Concept Beta V6

Ref: 6975482324217

K&F Concept Beta V6 20L Camera Backpack

With the waterproof K&F Concept Beta V6 backpack, every place you visit can become an inspiring backdrop for your photos and videos. Easy access to your camera or laptop, secure storage of accessories, and comfort even during full-day excursions make it an indispensable companion for every photographer and filmmaker. The backpack has a capacity of 20 liters, and with a load capacity of up to 21 kg, you can comfortably carry all your equipment anywhere.

Organization Made Easy

The K&F Concept Beta V6 backpack offers a 20-liter capacity and has been carefully designed to allow storage of both personal items like clothing, wallet, or phone, as well as flashlights and professional photography equipment. A separate laptop compartment can accommodate a device up to 15.6 inches, while the lower compartment easily fits one camera and four lenses, along with other accessories, and even a DJI drone.

Convenient Access

The ability to fully open the back of the backpack makes organizing equipment easy, and quick access from the side allows for the retrieval of necessary gear in a short amount of time - even when the product is worn on the back.

High-Quality Materials

All seams of the K&F Concept Beta V6 backpack have been reinforced, providing a load capacity of up to 21 kg. The product is made of waterproof and tear-resistant high-density 900D nylon. High-quality zippers add extra security. The sturdy construction with PE board and EPE foam provides cushioning and reduces the load, protecting photographic equipment.

Travel Comfort

Air-permeable mesh straps and ergonomically padded backrest provide coolness and comfort during use. Additionally, an adjustable chest strap keeps the shoulder straps in place, reducing the load, and inner pockets allow for the storage of small items such as filters and adapter rings. The hidden front pocket is dedicated to everyday accessories, and side pockets can hold a water bottle or umbrella.
