EasyFlow Glue Gun HOTO QWRJQ002

Ref: 6974370801397

EasyFlow Glue Gun HOTO QWRJQ002

The Hoto QWRJQ002 hot glue gun is a tool to unleash your creativity and make small repairs easier. It heats up quickly, making it ideal for joining different materials. Powered by a 3,000 mAh battery, it provides long run times and the USB-C port makes charging easy. Additionally, the gun automatically switches off after 5 min of inactivity.

Practical and versatile

The glue gun is ideal for creating all kinds of decorations, compositions or crafts. You can also use it for small repairs, for example to toys. Thanks to its innovative design, it prevents dripping and keeps things tidy while you work. In addition, the well-balanced design means that you can place the gun on a flat surface and it is extremely easy to operate.

Efficient and safe operation

The gun heats up in just 30 seconds, so you can start working almost immediately. What's more, the improved design allows you to automatically dispense the amount of glue, which translates into greater precision when working. Furthermore, the intelligent temperature control system protects against excessive glue melting and damage caused by overheating. In addition, the gun will automatically switch off after 5 min of inactivity, for safety purposes.

Cordless operation

The QWRJQ002 gun is equipped with a 3000 mAh rechargeable battery, which guarantees long-lasting use - you can use up to 28 glue cartridges on a single charge. If you want uninterrupted operation, use the gun while it is charging (the battery level should not be less than 30%). To renew the gun's energy, connect it to a power source using a USB-C cable (not included).

□Manufacturer

□HOTO

□Model

□QWRJQ002

□Battery capacity

□3000 mAh

□Warm-up time

□approx. 30 s

□Charging voltage

□5V/1A

□Dimensions

□approx. 135 × 127 × 35 mm

□Charging time

□approx. 220 min

□Glue cartridge dimensions

□approx. 7 × 100 mm

□Weight

□approx. 200 g

□Charging port

□USB-C
