Bike light Superfire BL09, 450lm, USB

Ref: 6956362995086

Superfire BL09 bike lamp

Take care of your safety on the road. Superfire BL09 bicycle lamp is distinguished by the power of 5W and a range of up to 130m. The light generated by it does not dazzle and provides optimal visibility. The device offers 4 light modes to choose from and is very easy to install. Its working time reaches 3 hours. It will also work perfectly well as a regular flashlight.

A reliable source of light

Provide yourself with a reliable source of light when cycling. The flashlight generates eye-safe light and has been designed not to dazzle passers-by or drivers of other vehicles. This way you will not pose a threat on the street and increase your safety. The BL09 will optimally light your way - its range is up to 130m.

4 light modes

Want to customize your bike light to suit your needs? Now it's possible! The BL09 lets you choose from 4 light modes - Strong light, Weak light, SOS and Strobe. So you can easily adjust the light intensity to the current situation or use the flashlight to draw attention to yourself when you need help.

Durable battery

Even on long bike tours, the BL09 won't let you down when you need it most. The durable 2000 mAh battery provides a runtime of up to 3 hours. To charge the device, connect it to a power source using the included USB cable. Built-in indicators will provide you with information about the charging status.

Handy and portable

The BL09 bike light is extremely light and compact. Weighing only 110g, it is small enough to fit easily into your bag or backpack. Thanks to that it can be also used as a regular flashlight. The device is very easy to install. You can easily attach it to the handlebar of your bike, using a silicone band with a clip.
