### Portable 2-in-1 Mosquito Repellent Flextail Max Repel S (Green)

The portable mosquito repellent Flextail Max Repel S is a reliable companion for camping, challenging outdoor conditions, and home use. This practical device combines durability, functionality, and versatility, offering effective protection against mosquitoes. Equipped with a silicone case, it is resistant to drops, and with two repellent modes and the ability to use it as a power bank, it is suitable for both travel and home use.

### Drop Resistance

Thanks to its silicone protective case, the Flextail Max Repel S is resistant to drops from heights of up to 1.2 meters. This feature provides peace of mind to users during travel and outdoor activities, where the risk of accidental drops is increased. Its sturdy construction means that the device remains functional and reliable even in challenging conditions.

### Two Repellent Modes

The practicality of this mosquito repellent can be seen in its two available modes: camping and outdoor. The camping mode offers 13 hours of operation and a range of up to 3 meters, making it ideal for indoor use. On the other hand, the outdoor mode is designed for outdoor use, with a larger range of approximately 9 meters, which is perfect for wide, open spaces. In this mode, the device can operate for 7 hours.

#### Fast Heating

The Flextail Max Repel S impresses with its ability to heat up quickly. It reaches a temperature of 110 degrees Celsius in just 50 seconds, which is crucial during unexpected encounters with mosquitoes. In the most efficient mode, the device can even heat up to 165 degrees Celsius, ensuring maximum repellent effectiveness.

#### Power Bank

In addition to its basic repellent functions, the Flextail Max Repel S can also serve as a power bank. Its 9600mAh battery capacity allows for charging mobile devices, which is invaluable during long journeys where access to electricity is limited. This feature greatly enhances the device's practicality.

#### Waterproof and Versatile

With an IP65 waterproof rating, the Flextail Max Repel S can be used in various weather conditions. Its green housing also fits into a modern design, suitable for many outdoor gear. The Flextail Max Repel S is an excellent combination of functionality and style, perfect for any outdoor adventure enthusiast.
