DIY Instant Print Camera for kids BlitzWolf DP1 (blue)

Blitzwolf BW-DP1 instant camera for kids

Help your child develop creativity and artistic interests. The BW-DP1 instant camera will not only allow him or her to take and print stunning photographs, but also record 1080p/30FPS videos. Several available functions, filters and frames, will allow the little ones to realize even their wildest visions. The built-in rechargeable battery with a capacity of 1000mAh provides a working time of up to 1.5 hours, and the included paper allows you to print about 750 photos.

Multifunctional device that will unleash your child's creativity

The camera offers several interesting features that will allow your child to create original materials. It allows you to take 8MPX photos and selfies. It also supports cyclic recording as well as timed photography. You can also shoot 1080p/30FPS videos with the BW-DP1. Your child wants to print a finished photo? All they have to do is press a button! The device also supports TF memory cards up to 32GB, so you can store multiple videos and photos.

Additional photo decoration options - only your imagination is the limit

The BW-DP1 also offers an array of creative filters and frames that kids can use to further decorate their creations. The set also comes

with colorful crayons and stickers that allow the little ones to decorate the printed photos. All this means that little artists will develop their creativity even more - nothing will limit their imagination!
