

2in1 Audio Adapter Mcdodo CA-5550 2in1 Lightning to Lightning

Ref: 6921002650502

2in1 Audio Adapter Mcdodo CA-5550 2in1 Lightning to Lightning + DC 3.5mm

2-in-1 USB-C to USB-C + DC 3.5mm audio adapter Mcdodo CA-5050

The Mcdodo CA-5050 adapter is an innovative gadget that combines charging and audio transfer functions, designed for users of devices with a USB-C port. With it, you can simultaneously charge your device at up to 60W and use traditional headphones with a DC 3.5mm input. This is ideal for owners of modern smartphones, tablets or laptops who value convenience and high quality audio.

Compatibility and efficient charging

The CA-5050 adapter is designed to accommodate a wide range of devices with USB-C interface, offering support for fast charging with up to 60W of power. This allows you to renew energy quickly and efficiently while listening to music or making phone calls. Its versatility makes it compatible with the latest smartphone models, including the iPhone 15 series, for which it only supports audio and music control functions.

High build quality and durability

Made of high-quality aluminum alloy and nylon, the Mcdodo CA-5050 adapter stands out for its durability and resistance to damage. Its compact dimensions (length of only 0.125m) and elegant black color emphasize the modern design, matching any device. In addition, the materials used in production guarantee not only durability, but also comfort and ease of handling.

Certified quality and safety

McDodo CA-5050 adapter is CE and RoHS certified, which confirms its high quality and safe use. Thus, you can be sure that by choosing this product, you are investing in a solution that is not only functional, but also reliable and complies with the highest standards.
