

Robot vacuum cleaner Midea S8+

Robot vacuum cleaner Midea S8+

Ref: 6956079714307

Midea S8+ intelligent vacuum cleaner with automatic emptying station

Buy smart and choose the Midea S8+ cleaning robot. It has an automatic emptying station for even more convenience. It also cleans floors and the water in the tank is sterilized, so you can be sure that the surface is clean and your child can play safely. With up to 4,000 Pa of suction power and a V-shaped brush, it removes any dirt in its path, and LDS navigation intelligently schedules the cleaning. Check out what else it can surprise you with!

Save time

Experience that cleaning can be easy and fun! The included station empties the tank for you. This is hygienic and saves you time. After emptying the tank, the robot resumes work where it left off. In addition, the dust bag will last for a month, reducing the frequency of its replacement.

Modern technology

Provide your family with a clean and safe environment. Midea cleaning robot removes harmful substances from tap water, so you can be sure that your floors are clean. The use of modern technology can detect the degree of water contamination and ensures that the water is sterilized to 99.9%.

Large water tank

Fear of running out of water in the tank while mopping? Don't be! The S8+ has a 250ml water tank, which translates to about 200 m² of cleaned surface. Use the app to set the optimal water dosage level to prevent water damage.

High cleaning effect

Want to keep the floors in your home spotlessly clean? The vibration frequency of the mop pad is 500 beats per minute, which translates into a high cleaning rate (78%). Also, the triple filtration system effectively removes dust and allergens, and you can enjoy a clean and safe environment in your own home.
