

Wireless Gaming Controller iPega PG-SW001B (black)

Ref: 6987245320015

Wireless Gaming Controller iPega PG-SW001B (black)

The iPEGA PG-SW001B gaming controller

Take gameplay to a new level. The iPEGA PG-SW001B gaming controller lets you comfortably play games on Nintendo Switch, PC, and Android devices. The dual motor and 6-axis gyroscope allow you to enjoy a more immersive experience, and the built-in rechargeable battery provides long battery life. The pad also allows you to program the buttons.

Even more immersion

Now you can become even more immersed in the world of your favorite game. The controller is equipped with a dual motor, which generates vibrations adapted to the events taking place on screen. Enjoy an even more immersive experience and feel like the hero of your favorite title!

6-axis gyroscope

The PG-SW001B controller will make even the most dynamic gameplay more fun. The built-in 6-axis gyroscope provides lightning-fast response to every movement, so you can enjoy incredible smoothness. Now you can easily beat your opponents and even the sharpest turns in racing games will not frighten you!

Programmable buttons

Customize the pad to suit your playing style. The iPEGA branded controller allows you to program the A / B / X / Y, L1 / L2 / R1 / R3 and up / down / left / right buttons. If you want, you can also adjust the pitch of the L2 and R2 buttons to give you the ultimate gaming experience.

Tailored to the player's needs

Thanks to its ergonomic design, the pad fits perfectly in your hands and provides a comfortable gaming experience. The LED indicator gives it a gaming character. The controller's buttons are easy on the fingers and extremely pleasant to the touch. Moreover, the D-pad and the left stick can be swapped to best suit your needs.

Turbo function - your new way to win

Blasting your in-game opponents with a hail of bullets has never been easier. The iPEGA PG-SW001B supports the Turbo function, which allows you to send a continuous stream of arrows or fireballs at your enemies with just the press of a button. Now you can easily claim your next victory!

Wide compatibility

No matter what hardware you're playing on - with the iPEGA controller, you can almost always enjoy dynamic gameplay! The device is compatible not only with the Nintendo Switch console, but also with Windows PCs, as well as Android smartphones and tablets.
