Wireless mechanical keyboard Dareu EK868 Bluetooth (white&bl

Dareu EK868 Low-Profile Mechanical Keyboard BT

The EK868 keyboard is able to meet the expectations of even the most demanding gamers. It is equipped with a durable battery that you can charge with the included USB cable and 68 keys that have a life span of up to 50 million clicks. Thanks to the use of high-quality materials, the device is extremely durable and comfortable to use. The 60% keyboard has been reduced by the numeric keypad, so it takes up less space on your desk, using only the functions you need. In addition, each of the keys has been flattened by half, compared to the standard keys, and their height is only 5.52mm.

Reliable mechanical switches

The keyboard is designed to provide you with comfort and freedom of use. Its mechanical switches are distinguished by low travel of just 3 mm and guarantee a smooth, reliable response. What's more, the keyboard is only 15 mm thick at its thinnest point, which means a more natural wrist position.

2 connection modes: wired or Bluetooth

You can connect the keyboard to your computer in 2 ways. Bluetooth wireless connection allows you to pair it with up to 3 devices simultaneously, built-in button enables you to switch between the devices. You can use it at work, for example. Or you can connect the EK868 with a USB-C cable.

Large capacity lithium battery

The keyboard has a built-in 2000mAh lithium battery. If you turn off the backlight, it can run for up to 30 days on a single charge. When the backlight is on, the battery life is up to 6 days. It takes about 6 hours to charge the battery. You can also use the keyboard while it is charging.

Additional Amenities

The keyboard features a physical switch that is used to switch devices and systems. Magnetic stands allow it to be raised 3.5mm, and a special aluminum alloy panel gives the product greater strength and corrosion resistance. EK868 is also distinguished by its small size - it won't take up too much space on your desk.
