The HOTO brand is part of the Xiaomi ecosystem.

Smart Kitchen Scale Hoto QWCFC001

Do you cook or bake often? Make your work in the kitchen easier and equip yourself with the HOTO QWCFC001 intelligent kitchen scale. The device weighs with an accuracy of 0.1 g, allows you to conveniently change units and has a clear LED display. It is made of high quality materials (including tempered glass) and is compatible with the Mi Home app - so you can e.g. save and share your recipes. The HOTO brand is part of the Xiaomi ecosystem.

Impressive precision

An accurate scale is an essential part of any kitchen. That is why the HOTO QWCFC001 is equipped with an extremely precise sensor, which guarantees measurements with an accuracy of up to 0.1 g. The weighing range of the device is 1 - 3000 g, so you can weigh both light ingredients and larger products. You can also switch freely between units - choose from g, ml, oz and lb:oz.

Well designed

The easy-to-read LED display is made of high-quality tempered glass and makes measuring results quick and easy. It is also durable and easy to clean. Thanks to its clever design, the scale is extremely easy to operate, with just one button to turn the device on/off and

change the unit.

Useful in any situation

An intelligent kitchen scale from HOTO will perfectly fit in your kitchen and will facilitate many different activities. With its help you will precisely measure all the ingredients for a cake, which will guarantee successful baking. The scale will also help you prepare an optimal portion of food for a child, it will also be useful for people on a diet.

Mi Home application

The possibilities do not end here! Download the Mi Home application, add the scale to it and gain access to additional functions. Thanks to the application you can save the data from measurements and create and share recipes. It will also help you prepare perfect coffee - it will provide information about the optimal amount of water and beans, as well as about the optimal brewing time.
