Smart Webcam with Tracking and Built-in Microphone Delux DC0

Delux DC07 Webcam with Built-in Microphone

Need a webcam that delivers high quality video and audio? The Delux DC07 captures Full HD quality video (1920 x 1080 px) at 30 FPS. What's more, it has a built-in omnidirectional microphone with noise cancellation, and its wide compatibility ensures trouble-free operation on all top operating systems.

Quality first

The camera is capable of recording and transmitting video in Full HD quality (1920 x 1080 px) at a smooth 30 FPS. The wide-angle lens will ensure that you can record without cutting out anything important, and the motion detection feature will take care of real-time image stabilization.

Built-in microphone

The Delux DC07 features a built-in omnidirectional microphone, so it accurately picks up sound for effective communication. In addition, it uses a noise-canceling function to cut out unnecessary sounds and improve the precision of communication.

Multiple uses

High quality image and sound ensure the camera's versatility. You can use it for activities requiring highly effective video and audio

communication. Online lessons, company and private meetings or streaming? Delux DC07 is up to the task in every situation. You can mount it directly on your laptop screen or monitor or place it on your desk. Its low weight (195 g) will not burden your equipment - do not worry, choose the most convenient place and enjoy the highest quality communication.

Wide compatibility

What else makes the DC07 stand out from other webcams? Wide system compatibility. The device works with Windows, Android, Linux, and macOS, giving you support even when you change hardware. It also comes with a remote control, which will increase the convenience of use. Bet on high comfort of use, without sacrificing quality!
