

## Interactive Pet Ball Cheerble Ball W1 SE

Interactive Pet Ball Cheerble Ball W1 SE

Ref: 6971883204288

### Cheerble Wicked Ball SE Interactive Pet Ball

The Wicked Ball SE is an interactive ball for small to medium sized dogs that will keep your pet entertained. It automatically rolls and jumps, encouraging your pets to be active. With 3 available modes you can easily adjust it to the needs of your pet. The device is made of high quality, durable materials and is waterproof to IP65. The durable rechargeable battery provides up to 90 minutes of run time.

### The perfect playmate

Provide your pet with perfect entertainment and be sure that it will not get bored. The interactive Wicked Ball SE will automatically run away from your pet, rolling and bouncing. It will successfully attract its attention and make it move! What's more, if the toy gets under the furniture or into a corner, it will automatically jump off and head in another direction. Don't be afraid that it will get stuck somewhere and prevent your pet from having fun!

### 3 fun modes

Choose from 3 available play modes to optimally adapt the toy to your pet's needs and condition. Just press a button! Each mode is indicated by a different color backlight. Normal (blue) makes the ball roll and bounce. Passive (green) makes the ball jump when touched. Gentle (purple) makes the ball roll and bounce when touched.

#### Intelligent performance

The ball is designed in such a way that your pet has time not only to play, but also to rest. This way, you don't have to worry about it getting too tired or getting bored with the toy too quickly. After starting, Wicked Ball SE works for 10 minutes and then goes into sleep mode for half an hour. However, your pet can reactivate it at any time - just by touching it!

#### Clever design

Wicked Ball SE is equipped with a rubber casing, which is safe for pets and extremely durable. Your pet's teeth will not pose much of a threat to it! Moreover, thanks to this solution, the toy is not very noisy. The small size makes it easy for your pet to pick up the ball. The toy is waterproof and dustproof (IP65), so it can be used outdoors as well, and you can simply clean it if necessary.

#### Long battery life

The device is equipped with a durable 135mAh battery, so you can simply charge it. No need to spend money on batteries for your pets' toys! A fully charged ball can provide your pet with up to 90 minutes of playtime. So you don't have to plug it in too often. You can charge the Wicked Ball SE with the included DC cable - it will only take about an hour.
