Sonic toothbrush with head set and case FairyWill FW-P11 (wh

FairyWill P11 Sonic Toothbrush

Take care of your dental hygiene and enjoy a snow-white smile. The FairyWill P11 sonic toothbrush gives you a thorough cleaning of your mouth with its powerful Maglev motor and 3 modes you can choose from. It also stands out for its long battery life of up to 30 days. The kit also includes a carrying case and 8 interchangeable tips.

Effective cleaning

This toothbrush has a powerful motor that vibrates at up to 31,000 strokes per minute in Clean mode. That means it removes debris and stains quickly and effectively. It also reaches the spaces between your teeth. It can clean your gum line up to 10 times more effectively than a regular toothbrush and 3 times more effectively than an electric toothbrush. You don't have to keep track of the cleaning time, either. A smart timer will remind you every 30 seconds to change the area you're brushing. After 2 minutes, the brush will automatically stop.

Replacement tips included

Not only you, but also your family can use the P11. The kit comes with 8 replacement tips that you can share with your loved ones or keep for yourself as a spare. Remember to change the tips from time to time for better hygiene and to avoid the proliferation of bacteria.

3 modes to choose from

Choose from 3 modes and customize the brushing action to your needs. Clean mode is perfect for everyday use. Gentle mode is recommended for beginners and those with sensitive teeth. The Massage mode provides a gentle gum massage and effective cleaning.

It can accompany you almost anywhere

Going on vacation? Going on a business trip? Take your toothbrush with you! It comes in a compact, matte case that lets you transport it comfortably and safely. You can easily fit the brush and 2 tips in it, which means it's perfect for couples too.

Long runtime

Say goodbye to recharging your sonic toothbrush too often. P11 has a rechargeable battery that lasts up to 30 days on a full charge! Charging takes just about 2 hours - the USB port lets you connect it not only to a charger but also to a powerbank or even your laptop.

Elegant design

The toothbrush stands out not only for its functionality, but also for its stunning design. The integrated handle feels great in your hand and has been designed to protect the various parts of the device from contamination. And the P11 looks really elegant too, as its clever design has been recognized by the Red Dot 2020 award.
