

## Wireless Outdoor IP Camera Blurams A21C

Wireless Outdoor IP Camera Blurams A21C

Ref: 6972127490313

Blurams A21C wireless outdoor IP camera

The Blurams A21C wireless outdoor camera will help you increase security in your home. It provides high video resolution of 1080p and allows you to get clear images even at night. It is distinguished by its IP65 waterproof rating, so you can use it outdoors without worry. It intelligently recognizes faces, and when it detects someone around your home, it will notify you immediately. The device also supports 2-way audio and is compatible with voice assistants such as Google Assistant and Amazon Alexa.

High image quality day and night

Ensure clear, crisp and richly detailed images - with Blurams, nothing will escape your attention. The A21C camera captures high-quality 1080p video, and offers Starlight Night Vision, which turns on automatically in low-light conditions. This ensures that you can see every detail - both during the day and after dark. The 129° wide angle is also noteworthy.

Keep your hand on the pulse

The camera intelligently detects people - if someone is in your home or garden, the device will notify you immediately. The A21C also has a light and sound alarm that will sound if a possible intruder is identified. This allows you to take even better care of your security! The camera also offers a face recognition function. If it detects a person around your home, it will assign a name to that person (if pre-programmed).

#### 2-way audio

Now you can conveniently contact your guests or give a message to the courier. The A21C camera is equipped with a speaker and microphone, so it supports 2-way audio. So it allows you, for example, to contact family members who are at home at any time. Ask the courier to leave a package next to the doormat or tell your child to stop playing in the garden and come back for dinner - it becomes even easier with Blurams!

#### Perfect for outdoors

The A21C camera will work perfectly both indoors and outdoors - it will not be intimidated even by extremely difficult weather conditions. The device is distinguished by IP65 water resistance - rain, snow, sun or wind do not pose a major threat to it. The product is also very easy to install - you will easily cope with it. Now you can easily take care of security in your home!

#### Convenient storage of materials

Your camera has recorded important material that you may need? Don't worry about losing it! The device allows you to save video on a microSD card (not included) with a maximum capacity of 128GB. So you can take care of storing all the necessary files. What's more, along with the camera, you get one month's free access to the cloud (with an option to extend for an additional fee).

#### Easy operation

Enjoy simple and convenient operation of the camera. All you have to do is install the Blurams app, which is available for both smartphones and computers. With it, you can not only check the preview from the A21C, but also, for example, change settings and use the possibilities provided by 2-way audio. The device is also compatible with Amazon Alexa and Google Assistant smart assistants. So you can operate it by voice. Just say a few words to display the camera's view of your garden!
