Wireless Ergonomic Mouse Delux M618XSD BT+2.4G RGB (white)

Delux M618XSD Wireless Vertical Mouse

The Delux M618XSD wireless vertical mouse will meet the expectations of even the most demanding users. Extremely easy and convenient to use - it has been equipped with an OLED display, which makes it even easier to use. The device allows 5-position DPI adjustment up to 4,000, and thanks to a 1000 mAh battery, it provides long working time. You can connect the mouse to your computer in 3 ways.

DPI adjustment

Customize the mouse's operation to suit your needs. The M618XSD allows 5-position speed adjustment up to 4000 DPI. This makes the device perfect for everyday use, work and even gaming. Windows users can also use special software to further customize the mouse's performance to their expectations.

3 ways to connect

The mouse supports 3 ways of connection - choose the right one for you! If you don't want to worry about the battery level, connect it to your computer with a cable. Or you can connect it wirelessly - via Bluetooth 4.0 or 2.4G. Moreover, it is possible to connect the mouse with 4 devices at the same time.

Long working time

With its long-lasting battery, the mouse can run for up to 2 weeks on a single charge, assuming you use it for about 8 hours a day. To charge it, simply connect it to a power source using the included USB-C cable.

Ergonomic design

The M618XSD mouse fits perfectly in your hand and provides unparalleled comfort. Wrist pain and fatigue are a thing of the past! The device is made of high-end materials, making it pleasant to the touch and durable. The built-in OLED display allows you to conveniently check the battery capacity, current connection mode and DPI, and an additional dial allows you to operate the mouse with your thumb. A magnetic wrist rest is also included.

Configurable backlighting

The device draws attention with its modern, original design. It has been equipped with a colorful backlight, which gives it a unique character. You can customize it to your liking using software available for users of Windows devices. In addition, the mouse detects movement - when you bring your hand closer to it, the backlight will automatically turn off.
