

Replacement heads for shaver 2in1 Kensen

Ref: 6953156301306

Replacement heads for shaver 2in1 Kensen

Replacement head for Kensen 2-in-1 shaver

The set includes 2 interchangeable heads for Kensen 06-KTMQ12-001 shaver. Thoughtful design makes you use it for depilation of the entire body. It does not cause irritation and cuts, and is perfect for sensitive skin. In addition, its disassembly and cleaning will not cause you any problems.

3 types of blades

The Kensen head consists of 3 types of blades, which translates into different usage scenarios. The straight blade will be suitable for epilating legs and arms, while the moving grid blade will work well for removing short stubble. On the other hand, you will use the curved blade for epilating underarms, bikini area and hard-to-reach areas.

Thoughtful design

The head's blades have been designed to provide you with ultimate comfort. You don't have to worry about cuts or irritation - the blade doesn't directly touch your skin. It will also be perfect for sensitive skin. What's more, you can remove the blade at any time and rinse it under running water. This will prevent the multiplication of bacteria and prolong the life of the product.
