

## Gasoline generator INGCO GE55003 5500W, AVR

Gasoline generator INGCO GE55003 5500W, AVR

Ref: 6928073608135

Gasoline generator INGCO GE55003 5500W, AVR

Be prepared for unforeseen circumstances and provide your equipment with an emergency power source. The INGCO GE55003 generator set is a single-phase power generation unit that stands out with a maximum output of 5.5kW and is equipped with a four-stroke OHV engine. Its fuel tank has a capacity of 25l, and its continuous operation time reaches up to 9 hours. The product also ensures safety of use and offers 2 AC outlets. Now you can easily power up your most important equipment in case of an emergency or start the equipment you need in the garden or on the construction site!

### Reliable engine

The INGCO GE55003 unit is equipped with a four-stroke gasoline engine, which is responsible for its reliable, efficient operation. The unit also has a large fuel tank with a capacity of 25l, which allows it to operate continuously for about 9 hours. Automotive unleaded gasoline is recommended for the product. You should also use SE or higher grade engine oils (optimally SG, SH or SJ). It is recommended to use SAE 10W-30 or 10W-40 oils.

### It won't overheat

Don't worry that your unit will overheat. The unit uses air cooling, so its temperature is constantly maintained at an optimal level. As a result, the equipment will not overheat and its parts will not be damaged. The unit is also equipped with a copper coil alternator, which

guarantees reliable operation and is resistant to wear and tear.

#### Voltage switch

The unit from INGCO also gives you the ability to adjust the voltage. It has been equipped with a special switch that allows you to select 120V or 120/240V. This means that you will easily set the unit to work according to the requirements of the equipment you are powering. This practical device will be perfect for construction sites, gardening or farming.

#### User-friendly

The aggregate is quite heavy, but you do not have to worry about problems with its eventual transportation. The device has been designed to make it as easy as possible for you to move it. There is a convenient handle and sturdy wheels, so you can move it where you need it without much effort. The aggregate is also relatively easy to use. It offers the option of electric or recoil starting.

#### Brand

INGCO

#### Model

GE55003

#### Rated voltage

220-240V

#### Rated frequency

50Hz

#### Max power

5.5kW

#### Rated power

5kW

#### Rated power factor

1:0

#### Compression ratio

8:1

#### Rated DC voltage

12V

#### Rated DC current

8.3A

#### Safety

Circuit breaker without fuse

#### Rated speed

3000rpm

#### Engine

4-stroke, OHV

#### Displacement

389ml

#### Cooling system

Air-cooling

#### Ignition system

T.C.I

#### Starting system

Electric + recoil

#### Fuel tank

25l
