

## Fryer, fondue 2-in-1 Techwood TFF-86

Fryer, fondue 2-in-1 Techwood TFF-86

Ref: 3760115718982

Fryer, fondue 2-in-1 Techwood

This practical appliance is great for deep frying, but it also allows you to prepare an impressive fondue for your friends. The fryer has a liter container and a practical basket with a detachable handle, moreover, in the set you will find 6 long forks, which will allow you to conveniently pick up different kinds of snacks. The advantage of the device is its easy operation and safety of use.

2 w 1

Do you have a small kitchen and don't want to buy too many appliances? Opt for the Techwood TFF-86, which works well as both an air fryer and a fondue set. The capacious oil tank allows you to fry the optimal amount of food, and the practical basket with handle provides comfort and safety. Want to make an impressive snack for a party? Place chocolate or liquid cheese in the container and surprise your friends with a delicious fondue.

Ergonomic design

The device is distinguished by its 850-950 W power and allows you to adjust the temperature from 80° - 190°, and thanks to its well-thought-out design you don't have to worry about burns. The graphics on the fryer allow you to quickly and conveniently check the frying temperature suitable for different types of food.
