Wireless gaming keyboard, mechanical BlitzWolf BW-KB0, Red s

BlitzWolf BW-KB0 wireless gaming mechanical keyboard

Are you looking for a keyboard that won't take up too much space on your desk, but at the same time will give you an edge during your next games? The Blitzwolf BW-KB0 model will be the right choice! It is equipped with 61 keys with OUTEMU Red switches that guarantee smooth, reliable operation. It also has colorful RGB backlighting with 20 modes to choose from. It also allows you to program the buttons and supports 2 ways of connection - via cable or wirelessly.

Made for gamers

The BW-KB0 keyboard is distinguished by its 60% layout, which means it is equipped with 61 most important keys. It won't take up too much space on your desk! What's more, despite its compact size, the product provides plenty of interesting possibilities. Its OUTEMU Red mechanical switches guarantee fast response times and reliable performance - now you can be sure that every keystroke will be registered correctly. With Blitzwolf you will effortlessly beat your opponents and break another record!

You will connect it in 2 ways

It is possible to connect the keyboard in 2 ways. If you want, use the included USB-C cable. Or you can connect to the hardware of your choice wirelessly - via Bluetooth 5.0. The BW-KB0 is compatible with laptops, tablets and smartphones running Windows, Mac OS, Android and iOS. It is also possible to pair the keyboard with 3 devices simultaneously and quickly switch between them.

Colorful RGB backlighting

This unique keyboard can also decorate your desk in a fantastic way. It has been equipped with colorful RGB backlighting, the style of which you can easily adjust to your preferences, choosing from up to 20 available modes. You can also adjust the brightness of the light and the speed of the effects. What's more, the keyboard gets an even more interesting character thanks to the suspended keys.

Customize it to your needs

Now you can easily adjust the keyboard to your needs and habits. The BW-KB0 model allows you to swap the switches in place, so you can set them the way you want. You also have dedicated software and internal memory at your disposal. This gives you the ability to program all the buttons of the device. You can also change FN functions, lighting effects, macros and even the keyboard layout. Make your gameplay easier and get another great victory!

Refined in every detail

Bet on high quality workmanship and enjoy comfort during your next gameplay. The keyboard is equipped with OEM keycaps, which are pleasant to the touch and allow you to type or play comfortably. The BW-KB0 also has sturdy, stable feet so you can adjust its height to suit your needs. In addition, the markings on the buttons are very clear, legible and resistant to abrasion.
