

Electric Sonic Facial Cleansing Brush InFace MS2000 pro (red)

Ref: 6971308400288

Electric Sonic Facial Cleansing Brush InFace MS2000 pro (red)

InFace MS2000 Pro sonic face brush (red).

Take care of proper skin care! InFace MS2000 Pro sonic face brush has a 5-stage vibration control and 3 cleansing zones. Gentle vibrations thoroughly cleanse the skin without causing irritation. It is made of tough FCA silicone and is waterproof. It provides up to 240 minutes of continuous use on a single charge.

Adjust it to your needs

Choose from 5 available modes to best match the brush's performance to your needs. You can easily change the mode by pressing the convenient button on the case. The device has a smart timer that will remind you every 3 seconds to change the cleaning area. In addition, it will automatically turn off after 90 seconds.

A new dimension in facial cleansing

The MS2000 Pro operates at a frequency of 4600 vibrations per minute. Thanks to this, the brush is able to deeply cleanse the skin of all impurities and dead skin. It also has 3 zones of cleansing made up of tabs of different thickness. The upper part of the brush is designed for the T-zone and reduces sebum secretion. For precise cleansing of the entire face, the middle zone will work. The lower part, on the other hand, thoroughly cleanses the U-zone area of the cheeks, among others.

Water resistant

The product features IPX7 water resistance. So you can use it even in the shower without any problems. What's more, you can easily clean it under running water.

High quality workmanship

FDA-strength silicone, which has hypoallergenic properties, was used to make the toothbrush. It effectively prevents the proliferation of bacteria and the deposition of dirt. In addition, it is extremely easy to clean.

Durable battery

The InFace facial brush is equipped with a 400 mAh battery, which allows about 240 minutes of continuous use. You'll charge the device with a cable - just plug it into a mains charger, for example. After just 2.5 hours the toothbrush will be ready for further use.
