

Mini wireless projector BYINTEK R15

Mini wireless projector BYINTEK R15

Ref: 725889899070

BYINTEK R15 mini projector

Now in your own room you can feel like in a cinema hall. The BYINTEK R15 DLP projector supports 4K resolution and can project an image with a maximum diagonal of 300". It also offers 3D mode and 2 5W speakers. It allows $\pm 40^\circ$ vertical keystone correction and stands out with 600lm brightness. What's more, the device supports connection via Wi-Fi, and thanks to the Android system you can install apps of your choice.

Plenty of applications

This practical projector is perfect for both large and slightly smaller rooms. It allows you to project a 30-300" diagonal image from a distance of 1-6m. Various mounting options are also available. For example, you can put it on a table, mount it on a tripod or hang it from the ceiling. This is a great option when you want to give a presentation in the office, watch a movie in the garden or watch a game with friends!

Multiple connectivity options

The projector is distinguished by its wide compatibility - you can easily connect the devices of your choice to it. It is equipped with a variety of ports, including USB, HDMI and a TF card slot. So you can easily connect a laptop, DVD, PlayStation 4 console, USB drive and more! Now you can even more conveniently watch a movie, show your friends your vacation photos or play a game on the big screen.

Big picture - lots of details

Don't let any detail escape you. The projector will provide you with an image of up to 300" - much more than an ordinary TV can offer. The device also supports DLP Link 3D - to switch to 3D mode, just press a button on the remote control. In addition, the projector uses an advanced MStar6A648 CPU and electric motor, so it even supports 4K resolution (via cable). Enjoy vivid, clear images and give yourself an unforgettable experience!

Android 6.0

The projector supports Wi-Fi 2.4G/5G and Bluetooth 4.0, which, combined with Android, gives you much more options. This will give you the convenience to download apps and use platforms such as Netflix, YouTube and Amazon Prime Video. You can also connect to the projector wirelessly. The device supports features such as Multi Screen, Mirror Screen, Miracast and Airplay (via the HappyCast app).

Practical remote control included

Enjoy even more convenient operation of the projector. The set includes a practical remote control that will give you quick access to its most important functions. Now you can easily adjust the volume, adjust the focus, mute the speakers, turn on 3D mode, go to the home page, change settings, and start or stop the device. You can also operate the projector with its buttons.

Additional amenities

Get even more options. The projector allows vertical keystone correction ($\pm 40^\circ$). This makes it easy to correct errors resulting from its misalignment. The device also has 2 built-in speakers of 5W each. This means that it can provide not only a richly detailed picture, but also high-quality sound! Now you will be even more immersed in the world of a movie or your favorite game. What's more, the separately available car power adapter allows you to power the projector via the cigarette lighter socket in your vehicle. So you can set up an outdoor cinema!
