Photovoltaic panel Allpowers XD-SP18V40W 40 W

Ref: 5905316141087

Allpowers XD-SP18V40W 40W photovoltaic panel

Get convenient access to electricity wherever you go. With the Allpowers XD-SP18V40W photovoltaic panel, you can benefit from environmentally friendly, freely available solar energy, with 40W and an efficiency of 22-25%. Thanks to its foldable design, it can accompany you almost anywhere, making it easy to transport. The product is also characterised by its wide compatibility.

The perfect travel companion

Going camping? Planning a multi-day outdoor trip? Then you can be sure that you won't run out of energy to charge your essential devices! The Allpowers solar panel is extremely lightweight, weighing only around 1kg. Its foldable design also sets it apart - when folded, it takes up so little space that you can easily transport it. You can also attach it to your tent with the included snap hooks.

Indispensable in the field

Are you going on a trip to a place where access to electricity is very difficult or even impossible? Take advantage of free, freely available solar energy and keep the equipment you need working! The Allpowers solar panel is ideal for the outdoors - it is very robust and resistant to damage. Water and dust pose little threat to it either!

Wide compatibility

Don't worry about compatibility issues. The XD-SP18V40W is equipped with two USB ports and one DC port. The necessary cables (3 pieces) and connectors (5 types) are also included. This allows the panel to seamlessly charge devices such as laptops, smartphones, tablets, digital cameras, drones, Nintendo Switch consoles and even portable power stations.

Impressive capabilities

Enjoy reliable operation of the devices you need. The Allpowers XD-SP18V40W photovoltaic panel stands out with an efficiency of up to 22-25% and a power output of up to 40W. This makes it ideal, for example, when camping or on a camping trip - you can use it to charge your chosen equipment in no time. What's more, the product automatically detects connected appliances and adjusts its operation to their requirements.
