

Garden solar lamp Superfire FF16-A, 600mAh

Garden solar lamp Superfire FF16-A, 600mAh

Ref: 6956362971554

Superfire FF16-A lamp

Enjoy striking lighting around your home. The solar-powered dusk-sensing solar lamp automatically turns on and off, is waterproof and energy efficient.

Lighting without electricity bills

The lamp has a built-in solar panel that converts the sun's rays into energy, powering a 600mA battery to save electricity. It has a special button that allows the lamp to charge in 8-10 hours during the day to impressively illuminate your garden at night.

Install where you want and don't worry about the rest

With a built-in twilight sensor, the lamp automatically turns on when it gets dark and turns off when it gets light. The waterproof rating is IP65. The lamp is made of stainless steel, so it can also successfully operate in the rain.

Striking design

The spherical lamp with a visible light chain will perfectly blend into any environment. It will be an atmospheric and practical addition for your garden, terrace or balcony.
