

Wireless Gaming Controller iPega PG-9087s with smartphone ho

Ref: 6987246908717

Wireless Gaming Controller iPega PG-9087s with smartphone ho

Bluetooth connectivity

The ipega PG-9087s gamepad with its built-in 500 mAh battery can run for 15 hours on a single charge, up to 30 days in standby mode. When there is no connection or action, it switches to power saving mode on its own. The controller has bluetooth 5.0 functionality - no need to download additional applications. Simple configuration and activation (direct connection to an iOS or Android device). Supports PC and PS3.

Tested in the toughest conditions

The joysticks of the gamepad are resistant to abrasion - made of high-quality material, they will prove themselves even in the most demanding game.

Perfect stability

Equipped with a size-adjustable telescopic function so you don't have to worry about unfortunate drops. Suitable for mobile devices up to 6.2 inches.

Press & Go

The gamepad has a TURBO function - just press one button to make your game faster and more efficient.

Battery is the power

The 500 mAh battery allows you to work for up to 30 days. The battery charging time is 3 hours. The battery is charged using the USB cable included in the package.
