

Electric coffee grinder HiBREW BM01T-1

Electric coffee grinder HiBREW BM01T-1

Ref: 5905316145177

HiBrew electric coffee grinder

Start your day nicely with a cup of your favorite coffee. With up to 70 watts of power, the HiBrew electric coffee grinder efficiently grinds beans. Its speed reaches 18,000 rpm, the torque is 422 mN-m, and the noise level is extremely low. What's more, operating the product will not give you any trouble. The device is distinguished by its compact design, so you can easily take it anywhere. Now you can enjoy aromatic coffee wherever you want!

Adjust the degree of grinding of the beans

You decide what kind of coffee you fancy. The HiBrew electric grinder allows 2 levels of bean grinding. The first makes you enjoy moderately ground coffee after just 40 seconds. On the other hand, choosing the second extends the grinding time to 80 seconds and allows you to enjoy finely ground coffee. Prepare your favorite beverage according to your preferences. What's more, the capacity of the bean grinder is as much as 350 ml.

User-friendly

The operation of the HiBrew is surprisingly simple. The grinder is equipped with a button, which will provide you with convenient management of its operation. One press will allow you to check the battery charge level. Two presses will make the device start working. To speed up the grinding process - press the button three times. Find out how convenient it is!

Clever design

The HiBrew electric coffee grinder features a sleek, minimalist design. The device has a USB port, which allows for convenient energy renewal. The plug is dustproof and waterproof. Silicone non-slip elements increase the product's stability and minimize the volume. The compact size ensures convenient transportation and makes the device perfect even in small kitchens.
