

Pet Dryer Homerunpet PD50

Pet Dryer Homerunpet PD50

Ref: 6970834414011

Homerunpet PD50 intelligent pet dryer

Are you tired of drying your pets after every bath? Or maybe your pet is afraid of dryers? Thanks to Homerunpet and the smart pet dryer, this problem will disappear! Adjustable temperature and multi-directional airflow will keep your pet dry even in hard-to-reach areas like the belly or paws. In addition, this device will take care of your pet's coat with 3-million negative ions.

Efficient drying

You can already forget about wet paw prints on your floor and furniture. The PD50 smart pet dryer, with its multi-directional airflow from below, will take care of efficient drying of difficult areas like the belly or paws. In addition, this device has the ability to adjust the temperature in the range of 16-40°C. What's more, a special sensor controls it, so the animal is dried evenly without overheating.

Different modes available

The Homerunpet pet dryer is equipped with several different modes, which you can change at will, thanks to the control panel located on top of the device. If you want your pet to feel nice and cozy, choose the Cozy Dry mode, which will run for about 60 minutes. On the other hand, if you want to dry your pet quickly, go for Quick Dry mode, which will make your pet dry in just 45 min. Other modes are Heat Mode and Cool Mode - the former will blow warm air and the latter will blow cold air. They will work well while petting your pet.

Dryer for different pets

Homerunpet equipment will be suitable for most small animals. It will work equally well for cats with short hair, which it will dry in as little as 30-45 minutes, for cats with medium-long hair, whose drying time is between 40-60 minutes, and for long-haired cats, for which it will work for 60-90 minutes. It will also be suitable for small dogs that fall within the 5-8 kg defect. These pets will be dry in as little as 60-90 min.

The power of grooming

Do you want your pet's coat to always be shiny and fluffy? Thanks to the PD50 smart dryer this will be possible! While drying, it releases 3-million negative ions that will take care of your pet's coat. They will act like professional grooming and make his fur always moisturized, shiny and fluffy.

Comfort of use

Homerunpet has also taken care of the comfort of use. You can already forget about your pets' fear of drying. The volume level of the PD50 is only 40-60 dB, so your pet will be more willing to undergo the treatment. You also don't have to worry about overheating your pet, because the equipment is designed so that the air can be freely exchanged. In addition, the dryer can become a bed, as it is equipped with a mattress, and a special door will allow you to pet your pet.

Ease of cleaning

The Homerunpet smart pet dryer is a very helpful device for grooming your pet, which is also very easy to clean. You can easily remove the bottom of the equipment and clean it with a dry cloth, and the special dust filter can be easily detached from the whole structure and washed with water. It is recommended to clean it regularly for better filtration effect. In addition, falling pet hair will no longer be a problem. It is caught in one place, for even more convenient cleaning of the equipment.
