

Battery Discharger Analyzer SkyRC BD250

Battery Discharger Analyzer SkyRC BD250

Ref: 6930460006141

Simple and sure

SkyRC BD250 is a discharger and battery tester in one. The device displays battery voltage, discharged charge and discharge current in real time. The maximum discharge current is as much as 35 amps and the maximum discharge power is 250 watts. The BD250 also accurately measures capacity so you can choose the most appropriate battery for your needs. You can be sure that with the SkyRC discharger you will maintain optimal performance and lifetime of your batteries.

Updated version

The BD250 is based on the BD200 model. It combines a stylish design with high performance and advanced technology to ensure constant discharge of 250 watts.

Not just unloading

SkyRC BD250 allows you to test batteries of any type with 5.4 V up to 35 V. The device has a built-in fan, which is part of an advanced cooling system, ensuring optimal operation of the device, even when discharged at full power.

Comfortable operation

The knob on the front panel allows you to easily change parameters that can be read on the LCD display.

Software

Thanks to dedicated PC software, the BD250 allows you to export battery voltage values in 30-second intervals (for the first 6 minutes).

Included:

BD260 Unloader

Unloading cable with connector XT60

Fuse

□ Dimensions

□ 136,6 x 104,8 x 107 mm

□ Weight

□ 879 g

□ Range of supported voltage

□ 5,4 V - 35 V

□ Power of unloading

□ 250 W

□ Unload current

□ 0,01 A - 35 A

□ Accuracy of the displayed current

□ 0,01 A - 10 A ±60mA / 10 A - 35 A ±3%

□ Accuracy of the displayed voltage

□ 5,4 - 10 V
