

Portable lamp with UV sterilization function, 2in1 Blitzwolf

Ref: 5905316145085

Portable lamp with UV sterilization function, 2in1 Blitzwolf

Portable lamp with UV sterilisation function, 2-in-1 Blitzwolf BW-FUN9 (silver)

Looking for a lamp that will have more than just one use? The Blitzwolf portable lamp is for you! Use it to light your way after dark, but also to sterilise household items.

Top quality

The Blitzwolf device is made of the highest quality materials and features a unique aluminium alloy coating. It is equipped with two light sources, consisting of 3 UVC LEDs and 3 white LEDs. Furthermore, this lamp is very light and handy, which will make it even more comfortable to use.

Large battery

What sets the BW-FUN9 lamp apart is its 1200 mAh lithium battery. Thanks to it, this device can run for up to 5 hours with the white light on, and 2 hours with the UV light. But don't worry if the battery runs out, because you can easily recharge it with a USB type C cable in just 2 hours.

Not just a lamp

What sets the Blitzwolf lamp apart is its additional UV sterilisation function. The wavelength is 270-280 nm, making the device 99.99% effective. The process itself is very quick and easy. All you have to do is switch to sterilisation mode and direct the light beam onto the

item. The whole process will only take 60 seconds! What's more, you can sterilise many things with it - phones, toothbrushes and even furniture.

Included

Lamp with sterilisation function

Type C cable x 1
