Bluetooth 5.2 Transmitter / Receiver BlitzMax BT05, aptX

BlitzMax BT05 Bluetooth 5.2 Transmitter/Receiver, aptX

The BT05 transmitter/receiver features wide compatibility and provides stable transmission. It supports 2 modes of operation - TX and RX and can connect to two pairs of headphones simultaneously, and thanks to its 250 mAh battery, its operating time reaches up to 20 hours on a single charge. What's more, Bluetooth 5.2 guarantees stable transmission over a distance of up to 10 meters.

Reliable connection

The Bluetooth 5.2 chipset, with which the BT05 is equipped, is responsible for fast and stable transmission. The Blitzwolf transmitter/receiver supports the A2DP and AVRCP transmit and receive protocols. As a result, you will enjoy a lag-free signal. Now you can listen to your favorite songs in Hi-Fi quality, watch movies and play games without any problems.

2 modes of operation

BT05 will work perfectly both as a transmitter and receiver. TX mode allows you to transmit audio signals from devices that are not equipped with a Bluetooth transmitter, such as a radio or MP3 player to, for example, wireless Bluetooth headphones. In RX mode, on the other hand, you can, among other things, play songs from your phone on an additional amplifier. Expand the possibilities of your equipment with Blitzwolf!

Wide compatibility

Wondering if the BT05 will be compatible with your equipment? The product is equipped with an AUX port. In addition, it comes with a 3.5mm AUX audio cable. As a result, it can meet all your connection needs and will work perfectly with a variety of devices. The possibilities are indeed many!

Additional perks

BT05 supports dual pairing, so it can connect 2 wireless audio devices or receivers simultaneously. All you have to do is press one button. What's more, it can automatically connect to a previously paired device. The product also has a built-in microphone, so you can answer an incoming call with the touch of a button.

Long operating time

The BT05 transmitter/receiver is equipped with a powerful 250 mAh battery. As a result, one charge is enough for the device to operate for up to 20 hours in RX mode or 12 hours in TX mode.

Included:

Transmitter/Receiver x1

3.5mm audio cable x1

USB charging cable x1

User manual x1

Specification:

Manufacturer

BlitzWolf

Model

BT05

Function

Transmitter and receiver

Bluetooth version

5.2

Bluetooth range

up to 10 m

Audio codecs

AAC, SBC, aptX/AD/HD/LL

Supported protocols

RX: A2DP, AVRCP; TX: A2DP

Battery capacity

250 mAh

Playback time

20 h (RX), 12 h (TX)

Charging time

about 2 hours

Output

DC 5V/0.5A

Charging port

USB-C

Inputs/outputs

3.5mm stereo audio port

Compatibility

Phones and pads (Android / IOS) and other audio devices with audio input interface
