iPega charger stand for VR set PS5 PG-P5V001PS VR2

iPega charger stand for VR set PS5 PG-P5V001PS VR2

The iPega PG-P5V001PS docking station will keep your gaming area tidy. It allows you to magnetically charge 2 controllers simultaneously and store VR goggles and a pair of headphones. What's more, it offers an additional USB port and RGB backlighting. In turn, the clever design prevents the device from overheating and overcharging.

Magnetic charging for controllers

The kit includes 4 adapters that will make it easy to charge your controllers. All you have to do is place them with the controllers in the docking station. After about 1.5 hours, they will be ready for further use. The LED indicators will provide you with information on the status of the device's operation: orange indicates charging, and blue indicates a fully charged battery. You can also turn off the charging function by pressing the dedicated button.

Make it easy to stay organized

iPega's docking station will not only allow you to charge your controllers, but also store your gaming accessories, so you can keep your gaming station in order. It also offers dedicated space for VR goggles and headphones. This way you can have all your equipment in one place.

RGB backlighting

That's not the end of the advantages of the iPega PG-P5V001PS. The docking station offers RGB backlighting to make your device look stylish. What's more, you'll customize its operation by choosing from 10 available colors - just press the appropriate button.
