

Wireless Bluetooth Speaker W-KING K6S 100W (black)

Ref: 6958917500660

Wireless Bluetooth Speaker W-KING K6S 100W (black)

Wireless Bluetooth Speaker W-KING K6S 100W (black)

Enjoy high quality sound when you listen to music, watch a movie or play guitar. The W-KING K6S wireless speaker provides up to 100 W of power and allows you to adjust the volume or bass with special knobs. You can connect to it in several ways - including using an AUX cable or wirelessly via Bluetooth 5.0. The device is also distinguished by its IPX6 water resistance and retro-style design. It also includes a wireless microphone and remote control.

Delightful sound

Are you organizing a barbecue with friends? Or are you planning some musical performances? The K6S speaker will work well in these and many other situations! It is equipped with 2 148 mm subwoofers and 2 78 mm tweeters, and its power output reaches 100 W. As a result, it can deliver detail-saturated, clear sound. Let yourself be invited to a real musical feast and take your experience to a new level!

Full control over the sound

Take control and adjust the sound to your expectations. The K6S speaker lets you choose from different EQ modes - try out the available settings! You can also adjust parameters such as bass, treble and volume with the corresponding knobs. It is also possible to monitor the sound using headphones. All this means that the W-KING K6S speaker will meet the expectations of even extremely demanding users.

Created with performances in mind

Do you like karaoke events? Do you happen to perform in the park or at the market? Or do you often meet with friends to sing together? The W-KING K6S speaker will work well in such situations too! The product allows you to connect a guitar, and you will additionally find a wireless microphone in the set. So you can freely present your vocal skills or just have fun with your friends!

Long working time

Say goodbye to tangled cables and enjoy more freedom. The speaker can operate wirelessly, making it much more convenient to use. It's equipped with a 15,000 mAh battery that provides up to 6-8 hours of runtime. Don't be afraid that it will refuse to serve you too quickly! Charging the device will only take about 4 hours.

Several connectivity options

With W-KING you can conveniently play music from the source of your choice. The K6S speaker supports TF cards and USB drives, and allows you to connect devices such as smartphones and tablets via an AUX cable. You also have the option to connect to it wirelessly - via Bluetooth 5.0. This solution provides reliable transmission with a range of up to 10 m, low latency, immunity to interference and more freedom!
