Laxihub M2-TY WiFi 1080p Tuya IP Camera

Ref: 6972055680787

Laxihub M2-TY WiFi 1080p Tuya IP Camera

Secure your home with the help of the M2-TY! The Laxihub camera stands out for its thoughtful design and has won a Red Dot Award. The product uses a 2-megapixel CMOS sensor, delivering clear and detailed images even in low light. Equipped with a smart motion detector, it captures 60-second recordings and stores them for up to 3 months in the cloud. The camera supports two-way audio and works with Amazon Alexa and Google voice assistants. Enjoy peace of mind and a sense of security with Laxihub!

Clear images

The events recorded by the camera will clearly show everything that happens within its range. The wide angle lens monitors a large area, and with Full HD resolution, you can be sure to see every detail of the recording.

Night visibility

Now you can monitor your home even after dark! Thanks to infrared, the camera guarantees night visibility of up to 10 meters, allowing you to monitor low-light areas. Switching between day and night mode is automatic, which means you can be sure that nothing will escape your attention!

Two-way audio

The camera is equipped with a built-in microphone and speaker, allowing you to record audio at the monitoring site and speak directly to those within range of the camera. This is a convenient solution that will allow you to keep an eye on children playing and call them out when you need to. In the event of an emergency, you can also scare off a possible burglar and ensure the safety of your household members.

Intelligent motion detection

The motion sensor on the M2-TY camera is the perfect protection against unwanted events. Detection of motion or sound automatically triggers the recording function, recording the entire event. You can find the created video in the cloud, so you can immediately check what happened in your home. What's more, you'll be notified by the app when motion is detected, so you'll immediately catch a possible threat and even prevent it!

Robust design

The M2-TY features a thoughtful, robust design, making it a Red Dot Awards winner. It works in temperatures from -20 °C to 50 °C, so it's great not only at home, but also in the garage. It supports SD card (max. 128G) and offers cloud storage, so important recordings can remain in its memory for a longer period of time. It stands out for its small size and sleek design, making it fit into any interior.

With the app you know more

The wireless camera works over WiFi and supports iOS 9 or later and Android 5 or later. User authentication and AES-128 encryption ensure security. You can connect your camera to the dedicated Smart Life app. This is a practical solution, so that all information about events will appear on your phone. Now nothing will escape your attention! You can connect your camera with a dedicated Smart Life app. This is a practical solution, thanks to which all information about events will appear on your phone. Now nothing will escape your attention!
