Computer Case Darkflash Melody   (Black)   Ref: 4710343792451
Computer Case Darkflash Melody   (Black)

Darkflash Melody
Create a computer that impresses you not only with functionality, but also with stylish design. Darkflash Melody looks really great and offers many expansion possibilities. It is made of high-class materials, which ensure its extraordinary durability. It allows the installation of up to 5 fans (not included).

Unique design
What makes the case look so good? Its shape resembles a hexagon, and the combination of iron mesh and painted SPCC gives it a modern feel. The side panel is made of dark tempered glass - use RGB accessories (not included) to create interesting visual effects!

Solid construction
The case was created with the highest quality materials, making it extremely durable. Its side panel is made of 3mm thick tempered glass, which is not only extremely solid, but also allows you to look inside the computer. The magnetic design of the top cover prevents dust from entering the case and makes its cleaning much easier.

Effective cooling
Create your dream computer and don't worry about it overheating. The case offers a high-end internal cooling duct and allows you to

install up to 5 fans. What's more, 2 fan slots are located above the power source cover. So you can enjoy effective +cooling and an interesting RGB effect.

Many possibilities
The chassis is extremely user-friendly and allows you to assemble or expand your computer with relative ease. Among other things, it will accommodate 2 SATA 2.5 drives, a CPU cooler up to 160mm and a VGA cooler up to 260mm. It is also equipped with a separate enclosure for the HDD, which can translate into its more efficient performance.
