Liberex Facial Trimmer

The Liberex brand multifunctional facial trimmer is a must-have tool to help you take control of unwanted hair. The rotating blades and 360° swivel design provide incredible efficiency, and the built-in LED light makes it easy to work with. The product is easy to clean, lightweight and handy - perfect for both home and travel. It only requires one AA battery (please, purchase it separately - it is not included).

Will work well for many applications

With this trimmer, you will not only get rid of nose hairs. You can also use it for your ears and even your eyebrows. You can also use it to even out your beard or sideburns. You can successfully use it on your entire face. This small device will surprise you with its possibilities!

Effective and safe for the skin

Made of stainless steel, the dual blades precisely cut hairs without pulling or causing irritation. The unique design of the device is also responsible for this. With the trimmer you can easily get rid of unwanted hair from the entire face.

No hair will hide from you

The device is equipped with a small LED light that will make it easy for you to operate it. Thanks to it you will be able to see everything

while trimming - you won't miss a single hair, even the best hidden ones. The Liberex trimmer will give you a precise, efficient shave.

In the interest of hygiene

After you are done trimming, you can detach the cutting head of the device and wash it under running water. The remaining hair can then be easily removed, for example with a brush. This way you can keep the device clean, prevent bacteria from growing on it and avoid skin problems. What's more, it comes with a dustproof cover that protects the cutting head from dust and other debris.

You can always have it at hand

The trimmer is distinguished by its pocket size and light weight of 150g. So you can comfortably use it not only at home, but also for example on vacation or during a business trip. You can easily fit it in your suitcase, backpack, or even a small bag. Unnecessary hair in the least appropriate area will never spoil your trip again!
