Gaming chair RGB Darkflash RC650

Ref: 4710343794295

Darkflash RC650 gaming chair RGB

Do you spend a lot of time at the computer? Do you happen to devote long hours to gaming? Take care of your comfort and get yourself a comfortable gaming chair! The RC650 by Darkflash is equipped with a soft seat and a specially contoured backrest, which will allow you to maintain the correct posture during subsequent duels. It allows you to recline up to 150°, and also allows you to adjust the height and armrests. The armchair also has a wide, sturdy base with durable 60mm diameter casters.

Ergonomic design

Ensure the comfort you dream of during your next game. The contoured backrest of the chair provides the necessary support for your spine and allows you to maintain the right posture at the computer. No more pain and fatigue! The RC650 also has a soft seat, which is made of high-density foam for incredible comfort.

Stable base

Enjoy a high level of safety - even during an extremely exciting game. The RC650 chair is equipped with a wide 350mm base, which meets BIFMA standards and guarantees the necessary stability. Also noteworthy are the 60mm diameter nylon casters, which stand out for their exceptional durability and allow you to move effortlessly on almost any surface.

Multiple adjustment options

Customize the gaming chair to suit your needs and make it even more comfortable. The RC650 lets you adjust the armrests in 2 planes, and it also allows you to recline from 90°-150°. Adjust it to make you comfortable! You can also adjust the height of the chair with a special lever. The mechanisms used guarantee the necessary stability and safety regardless of the chosen setting.

Delightful design

Take care of the unique atmosphere in your gaming area. The RC650 chair is distinguished by colorful RGB backlighting, which gives it a fantastic gaming character. You can also adjust it to your preferences with the included remote control. Now you can easily achieve stunning visual effects! What's more, the chair is finished with high-quality synthetic leather, which is pleasant to the touch and looks incredibly stylish.
