Darkflash B351 computer case

Ref: 4710343794899

Darkflash B351 Computer Case

The Darkflash B351 is a minimalist computer case with over 10 years of industry experience. It features a modest yet elegant design and exceptional heat dissipation properties thanks to well-placed ventilation slots. With its spacious interior, you can easily accommodate all the necessary components for your computer without worrying about space constraints.

Wide Compatibility

Furthermore, the Darkflash B351 stands out with its wide compatibility, making it suitable for various motherboard types, including ATX (305 x 244mm), M-ATX (244 x 244mm), and ITX (170 x 170mm). Moreover, you can install a graphics card with a maximum length of 345mm, giving you flexibility in choosing components. Made from high-quality steel, you can be confident that this case will serve you well for a long time while maintaining its quality.

Front Panel

The front panel of the Darkflash B351 case not only looks elegant with its vertical vents but is also functional. The Power and Reset buttons, as well as USB 2.0 x 2, USB 3.0 ports, and audio inputs, are arranged in a single line, giving the case a clean appearance and providing easy access to ports and buttons, which is particularly useful in everyday use.

Hard Drives

When it comes to hard drive placement, the Darkflash B351 offers the user many options. You can freely customize the internal layout to suit your preferences and needs, regardless of how many hard drives you want to install. This is another advantage of this case that allows you to make better use of space and optimize your computer configuration.
