

Coffee Gooseneck Kettle Cocinare (white)

Coffee Gooseneck Kettle Cocinare (white)

Ref: 6975652280053

Gooseneck Cocinare temperature-controlled electric kettle (white)

Invite loved ones over for coffee, tea or hot chocolate and enjoy the aromatic flavor together with the Gooseneck electric kettle. This elegant device by Cocinare creatively combines a screen and a temperature control knob (ranging from 38°C to 100°C), stands out with a power output of up to 1,500 watts and offers a timer. Its ergonomic shape resembling the letter S allows you to comfortably and precisely fill a cup. The capacity of the kettle is 0.9 l, and the volume of its operation does not exceed 49 dB. Moreover, the product guarantees 60-minute thermal insulation, and thanks to its well-thought-out design its use is completely safe.

Feel like a real barista

Brew a drink that will meet the expectations of even the most demanding coffee and tea lovers. The Gooseneck electric kettle provides a capacity of 0.9 l and allows precise temperature control from 38°C to 100°C. The value selected with the practical dial will show on the display. Now you can enjoy the aromatic flavors of your favorite drinks every day!

Thoughtful solutions

The kettle by Cocinare provides effective thermal insulation to keep you warm for up to 60 minutes. The device also offers a 5-minute timer that helps you achieve the optimal extraction time, allowing you to extract the desired coffee flavor.

Ergonomic design

The interior of the kettle is made of 304 stainless steel, which is resistant to corrosion. Its weight does not exceed 600 g. The upward-facing hot air outlet directs the steam away from your hands and reduces the risk of burns. The ergonomic handle allows for stable and comfortable pouring, and with its sleek S-shaped design, the Gooseneck model provides unparalleled water flow control. With Cocinare you will master the art of coffee brewing to perfection!

Convenient operation

Use the dial to conveniently adjust the temperature level, while the practical buttons allow you to operate the kettle efficiently. What's more, with a power range of 1200 to 1500 watts, you don't have to wait long for the water to boil. Now you can quickly make delicious drinks!

Included:

Electric kettle x1

Mug pad x1
