

Electric Vehicle charger cable Choetech ACG11 3.5 kW (white)

Ref: 6932112105745

Electric Vehicle charger cable Choetech ACG11 3.5 kW (white)

Choetech ACG11 3.5 kW electric car charger cable (white).

Choetech ACG11 is an electric car charger cable that features IP55 waterproof rating - this means that it is almost completely dustproof and resistant to moisture, but should not be exposed to heavy rain. In terms of fire resistance, it belongs to the UL94 V-0 class. The rated power is 3.5KW, the rated voltage is 250V, and the rated current is 16A. The cable can withstand a voltage of 2000V and can operate at maximum temperatures of -35°C~50°C. What's more, the lifespan of the device is estimated at 10000 plugs and unplugs. The durability is also evidenced by the fact that the cable can withstand a fall from 1m and a vehicle weighing 2t rolling over it.

Waterproof and Fireproof for Durability

The Choetech ACG11 charger cable is a solution designed for durability in a variety of conditions. It has an IP55 waterproof rating, which means it is resistant to moisture and dust, but it is worth remembering that it is not designed for use in heavy rain. What's more, the UL94 V-0 flame retardant rating emphasizes high fire resistance. These features ensure that the cable will maintain performance and safety even in harsh weather conditions.

Technical parameters for efficiency

The ACG11 cable provides optimal technical parameters that contribute to its efficient operation. Its 3.5KW power output, 250V rated voltage and 16A rated current make it a robust and efficient solution for electric vehicle charging. Operation over a wide temperature

range of -35°C to 50°C and a withstand voltage of 2,000V underscore the cable's flexibility and reliability in a variety of use conditions.

Durability

The ACG11 cable not only provides efficiency and durability, but also demonstrates impressive mechanical life. The ability to connect and disconnect more than 10000 times confirms that the cable is designed for long-term use. It is also strengthened in terms of durability - it can withstand a fall from 1 meter and the rolling of a vehicle weighing 2 tons. These features make it not only efficient, but also an extremely functional tool for charging electric vehicles.

Cover

Manual

□ Brand

□ Choetech

□ Model

□ ACG11

□ Color

□ White

□ Length

□ 5000±100mm

□ Rated power

□ 3.5KW

□ Rated voltage

□ 250V

□ Rated current

□ 16A

□ Insulation resistance

□ >100mΩ

□ Withstand voltage

□ 2000V

□ Rated power

□ 3.5W

□ Contact impedance

□ 0.5mΩ

□ Terminal temperature rise

□ 10000 times

□ Influence of external force

□ withstands a drop of 1 meter and rolling of a 2t vehicle

□ Degree of protection

□ IP55

□ Fire resistance level

□ UL94 V-0
