Smart WiFi Wall Socket Avatto N-WOT10-USB-B TUYA USB USB-C (black)

Smart WiFi Wall Socket Avatto N-WOT10-USB-B TUYA USB USB-C (black)

Now you can even more conveniently use selected devices in your home. The Avatto smart outlet will allow you to control them remotely, using the TUYA / Smart Life app or via Google Assistant / Amazon Alexa voice assistants. It's also equipped with 2 ports - USB-A and USB-C, which allow you to charge smartphones or tablets, for example. What's more, the product connects via Wi-Fi and is very easy to install.

Additional ports at your disposal

Enjoy fast and convenient charging of your devices. The N-WOT10-USB-B is equipped with 2 ports - USB-C and USB-A. This means you don't have to use additional chargers and occupy several outlets just to charge some equipment - now you can plug in your tablet or phone directly. The product provides charging power of up to 20W and supports standards such as QC 3.0+, FCP and AFC - don't wait too long until your smartphone is ready to go again!

Remote control from your smartphone

Don't remember if you turned off a device before leaving home? Now you can do it with your smartphone! All you have to do is add your outlet to the TUYA / Smart Life app - when you do, you will gain the ability to remotely turn on and off selected appliances. If you want, also share your appliances with the rest of the household, so that they too can conveniently control them remotely.

Plenty of additional possibilities
Use the timer function, prepare a work schedule or connect more smart devices together and automate their operation. This way, you can, for example, make the coffeemaker automatically start when you get out of bed and the lights turn off at 7:30 when you leave for work. It's also possible to group control selected appliances.

Control by voice
Now all it takes is a short command to turn a specific appliance on or off - you don't even have to move from your seat! The Nest is compatible with Amazon Alexa and Google Assistant smart assistants. So you can conveniently control it with your voice. Are you lying in bed and need to turn off the light? Are you sitting on the couch and want to turn on the TV? Or maybe your hands are busy cooking and you need to start some appliance? With Avatto all this becomes much easier!

Improved design
The Avatto socket will find use not only at home, but also in an office or hotel, for example. It is distinguished by its durable design - it has been equipped with a tempered glass panel, which is scratch-resistant and easy to clean. Installation of the device will also not cause you any problems. In addition, the outlet offers a special safety lock - it will also prove useful in places where children are present. It can also remember the last settings and restore them after a possible power failure.
